

Managed IT Support

If you're not satisfied with the membership in the first 30 days, we will refund the cost of the membership, no questions asked.

The support you need for any small to medium business, all in one package. [Learn More](#)

Small Business Pricing

Unlimited Tech Support

Either onsite repairing issues or handling over the phone with remote control we've got you covered.

Printer Management

We support managing print servers, repairing printer issues such as jamming, unable to scan and more.

Data Management

We will create a data management plan, a data back up plan and a data recovery plan in case of any data loss. We will also manage your server.

Network Support

We will make sure that you're getting the best out of your network with working with your ISP from getting the fastest internet speeds to getting the best Wi-Fi coverage in your location(s).

Device Asset Management

We will keep track of all of your electronic devices and computer equipment so you know exactly where your investments are going to.

Microsoft Office / Google Workspace Integration

We will assist with new office365 or Google workspace setup, data management. SharePoint or Google sites and more.
